## Capabilities Statement

### Corporate Overview

Summome Tribal Ventures is a small, disadvantaged business under the SBA 8(a) Business Development Program headquartered in Reston, Virginia. Summome (Suh-mo-muh) is a joint venture comprised of Poarch Creek Indians Government Services (PCI-GS) and Guidehouse. Both firms supporting this joint venture deliver excellence to our Federal clients, separately and as a team.

We support executives and managers at all levels of government to maximize the performance and efficiency of their organizations through creative, cost-effective solutions that optimize organizational structures, workforce, and workflows.

### Potential Areas of Support

We provide a comprehensive suite of services which include:

#### Emergency Management

Provide continuity of operations (COOP) planning, exercise development and facilitation, training design and delivery, threats and hazards identification, occupant emergency program support, emergency communications, and after action reporting and improvement planning.

#### Strategic Planning

Provide expert support for all phases of the strategic planning process (formulation, implementation, evaluation, and reporting), including documenting the current and desired future states to meet goals and objectives.

#### Strategic Communications

Support internal, external, and executive communications, including drafting key messages and materials to be shared with internal and external stakeholders and leadership.

#### Change Management

Deliver facilitation techniques to create, manage, and sustain transformational organizational/cultural change using human-centered design thinking, live voting, collaborative exercises, and interactive storyboarding.

#### Talent and Workforce Management

Provide workforce planning, training, employee experience surveys, FEVS analysis, and support developing, refining, and/or maturing functions and processes (organizational structures, standard operating procedures, staffing models, skills assessment, staff training, and hiring plan).

**Customer Experience/Stakeholder Engagement** Develop, refine, and continuously assess stakeholder engagement and customer experience plans for the office. This could include providing administrative, technical, and logistical support to implement the stakeholder engagement and customer experience activities.

#### Enterprise Technology Strategy

Help our clients drive vision, optimize investments, improve experience, and enable delivery. We deliver business results, while helping government maximize performance in the face of ever tightening budgets and increased demand for services.

#### Technology Transformation

Assist clients in embracing technology as a disrupter, helping them adapt to continuously changing markets, leverage emerging tech, and help adopt new organizational models and tech-enabled business strategies.

#### Advanced Digital Solutions

Deliver digital technologies such as robotic process automation (RPA), advanced analytics, and workflow solutions that can fundamentally transform service delivery models, enabling agility and reducing reliance on low-cost geographies for captive shared service centers and business process outsourcing labor savings.

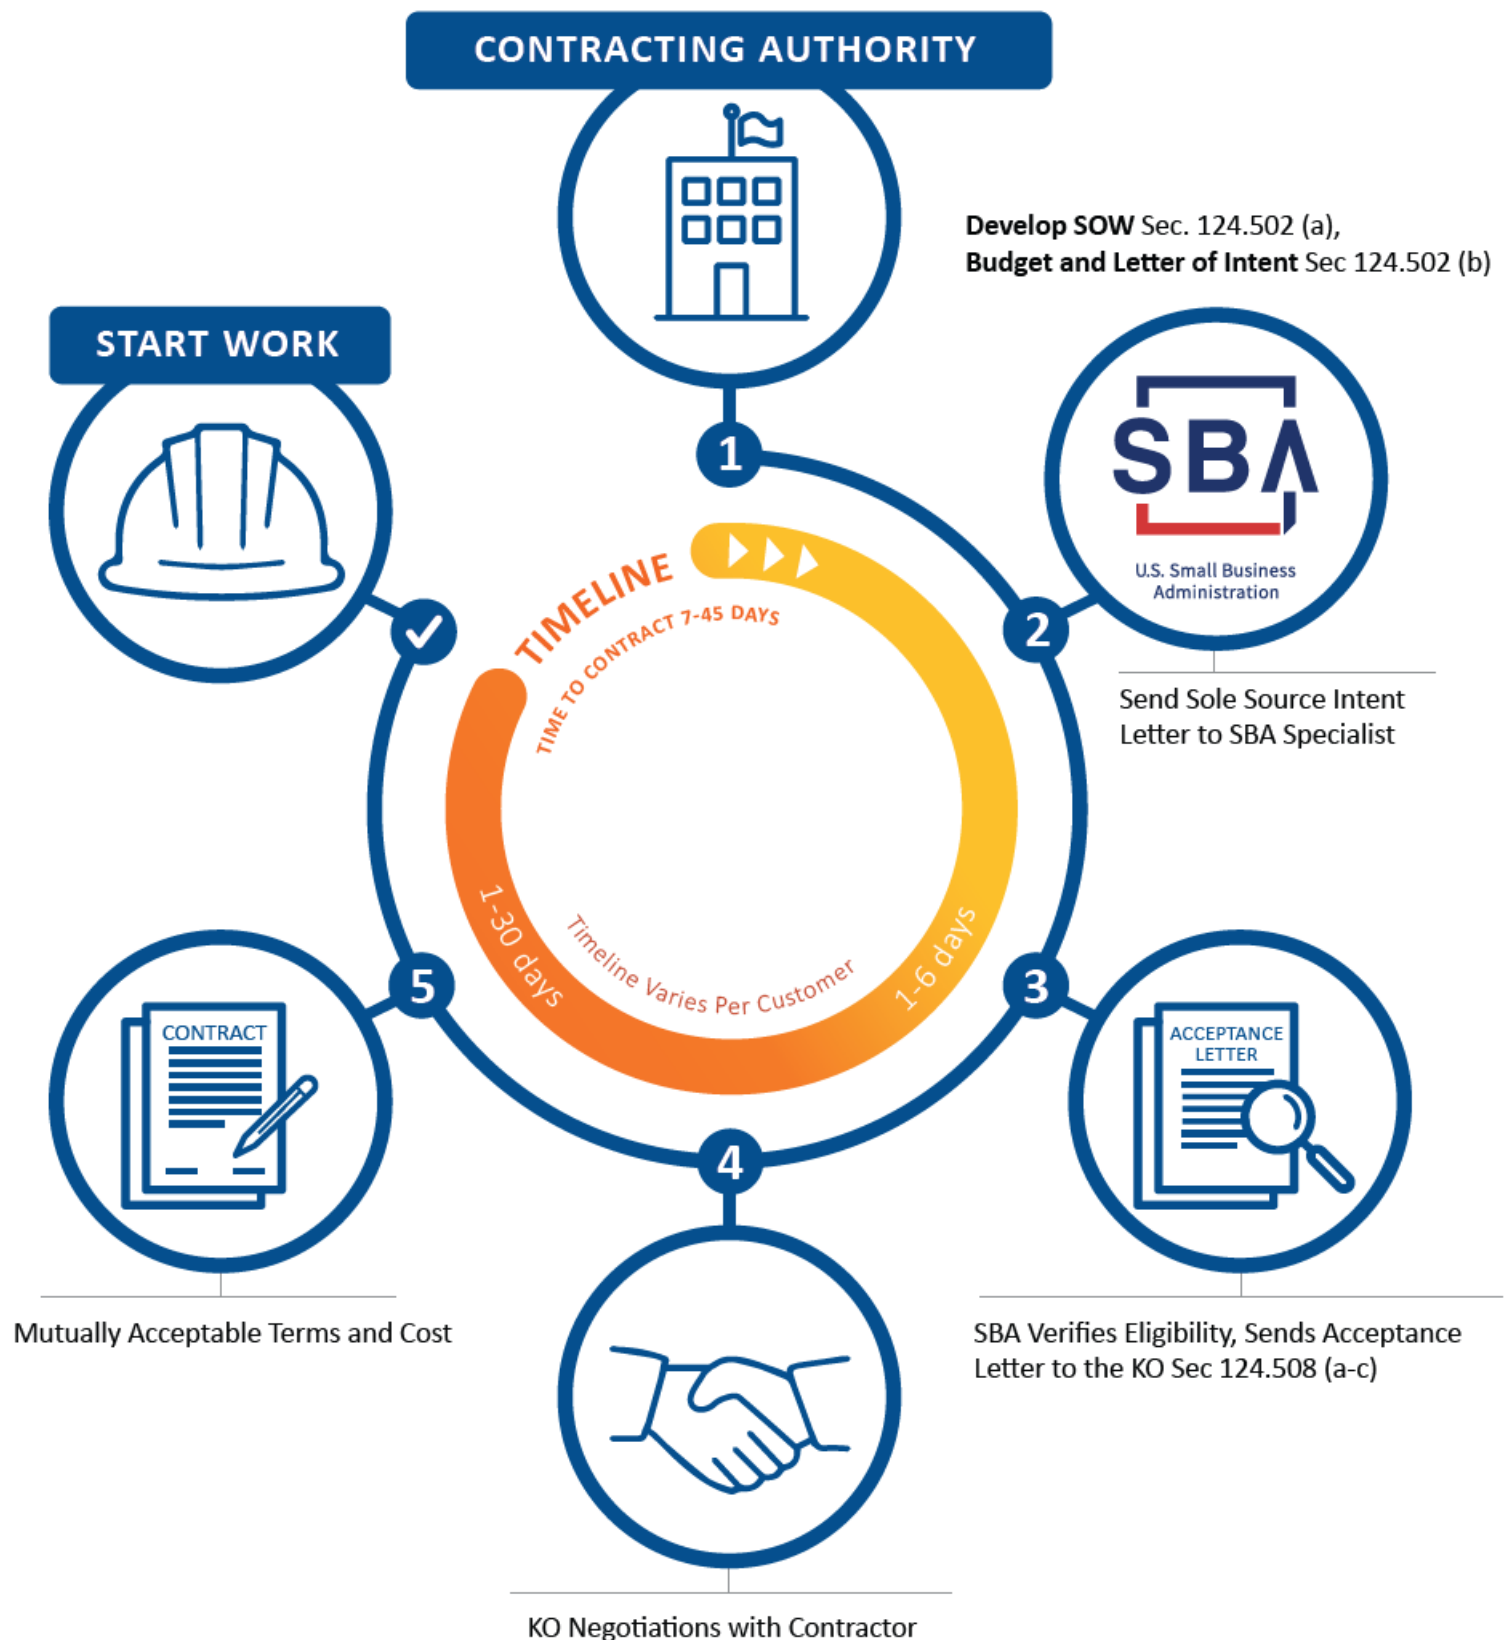

#### Strategic Initiatives

Support the development and implementation of programmatic activities related to White House Executive Orders, OMB mandates, and other relevant federal policies including requests for information from Congress.

#### Instructional Design and Training Development

Training strategy and quality improvement, Interactive webinar design and facilitation, eLearning course development, accessibility, programming, and configuration, Resource and job aid development and enhancement, Learning Management System (LMS) administration, and Virtual reality content creation.

# TRIBAL 8(a) SOLE SOURCE PROCESS

# Features and Benefits
